TO WHOM IT MAY CONCERN

This is to certify that **Hijab Zahra** from **IMCG F/6-2 Islamabad** has successfully completed WWF-Pakistan's Digital Youth for Nature Programme, which was organized for six weeks during the months of August and September 2026 from Islamabad.

The programme aimed at equipping the students to not only learn about the environmental challenges faced at the global level but also to generate innovative solutions within the context of Pakistan. Hijab participated in numerous skill-building workshop sessions naming Climate Change, Wildlife Conservation and Ecopreneurship. Additionally, the participants also completed **24 hours** of community service by designing awareness-raising content, to sensitize and engage communities about environmental challenges.

WWF came into being in 1961 in Gland, Switzerland. Today it is the leading and most respected conservation organization in the world, with a global network active in over 100 countries. WWF-Pakistan was established in 1970 and is now the leading conservation organization in the country. Our mission is to stop the degradation of the planet's natural environment and to build a future in which humans live in harmony with nature.

On behalf of WWF-Pakistan, I acknowledge and appreciate the invaluable contribution of Hijab for our environmental education initiatives.

Wishing you all the best for your future endeavours.

Regards,

Taseer Ali Mirza

Head, Environment Education Programme
